- ✓ Paste/paste presentation

## AHseal+ Epoxy Resin Root Canal Sealer Paste

Powder and resin root canal filling material which has excellent sealing capacity. It offers close adaptations of the root canal walls and has very low contraction during setting.

Setting time 8 - 20 hours.

Working time over 4 hours.

### Indications

Permanent obturation of root canals of teeth of the secondary dentition with the aid of obturation points.

### Features

Long working time during preparation  
Radiopaque

### Advantages

Neutral colouring  
Does not inhibit adhesion of other materials  
Aids material manipulation outside mouth  
Shows clearly on X-rays

Available in	Code
20g Base/10g Resin	AH0781
